CALL FOR SPEAKERS: RMDS Annual Conference 2019

This is the official document for the Annual RMDS Conference in Pasadena, California. This year the conference theme is *Innovative Methods with Big Data and Artificial Intelligence*. The conference is expected to gather thousands of attendees and hundreds of sponsors, speakers, and demonstration presenters. If you are interested in participating as a speaker, please follow the directions below and examine the key details regarding this year's event.

Topics of Interest

- Emerging technology and innovations in data science or artificial intelligence
- Applications for artificial intelligence (business, media, government, healthcare, security)
- Problems and concerns regarding big data and artificial intelligence
- Philosophical and social perspectives on big data and artificial intelligence
- Original research or development of big data and AI or related areas of innovation
- Recent (~12 months) technological advancements or upcoming changes in the industry

Directions for Speakers

1. Confirm interest by reaching out to jaden@RMDSlab.com by July 1st.
2. Submit a 200 word abstract regarding the contents of your presentation as a PDF or DOC file to jaden@RMDSlab.com by July 15th.
3. Keep an open line of communication for further information regarding the event.
